WARNING:

1. Do not supplement monensin from other sources (e.g., other feedstuffs containing monensin or slow release devices containing monensin).
2. No withdrawal period or milk withholding time is required when treated at the recommended dose of 22 mg monensin per kg (0.0022%) of complete diet.
3. Keep out of reach of children.

CAUTION:

1. Do not exceed recommended levels as reduced average daily gains may result.
2. Do not allow dogs, horses, or other equines or guinea fowl access to formulations containing monensin. Ingestion of monensin by these species has been fatal.
3. Do not use monensin-medicated feed for the treatment of outbreaks of coccidiosis.
4. Do not feed other sources of supplemental selenium to livestock receiving this feed.
5. Directions for use must be carefully followed.

Individual results from the use of this product may vary due to management, environmental, genetic, health and sanitation differences; therefore, New Rosedale Feed Mill does not guarantee individual results.
